School newsletter

## 校長的話 Principal's Words

This year's goal for the school is to enhance the learning experience for young children. We believe outdoor experiential learning is crucial for their growth. Therefore, we will lead students from various classes in diverse outdoor activities. Lower and upper kindergarten children will visit places like libraries, ocean parks, and traffic safety education centers, while preparatory and nursery students will explore nearby parks. These activities will improve their observational skills, stimulate curiosity, and allow for enjoyable picnics, where they will learn about cleanliness and environmental protection, fostering a better understanding of their community.

Additionally, the school will promote home-school cooperation to strengthen relationships between parents and children and improve communication among parents. We plan to organize parent lectures, workshops, competitions, and family fun days to enhance interaction between the school and families. To bolster teachers' professional development, the school will arrange various training programs, enabling them to continue their education and integrate new knowledge into their teaching. This year, teachers will also have the opportunity to engage with different teaching philosophies and methods through exchanges in mainland China.

We look forward to these initiatives improving the quality of education in our kindergarten, providing young children with an enriched learning experience, and supporting their joyful growth.

陳鳳賢校長  
Ms. Chan Fung Yin

K1A(AM) Marc Ayden Bielza

Despite being filipino,my son didn't feel left out and able to engage with other students well.He's so active and loves to go to school and couldn't be more happier.So, I would like to take this moment to show my gratitude to the teachers for their hardwork and patience in guiding my son as he take his initial steps in education.

*School so many activities,kids a lot of funs,and learning the environment.*

K1 (WD) Mackenzie Sen wan Leung

K1B(AM) Kwok Hiu Ching

I remember at the beginning of September when school started, Ching Ching was almost always crying on the school bus. He often said he didn't want to go to school and wanted to stay home to play, mentioning that it was hard to follow the rules. But now he gets on the bus with a smile, comes home to share happy stories about school life, and even wants to go to school when he's sick. This is a significant change! (Although he still sometimes complains about not wanting to follow the rules.) As parents, we feel very comforted and moved to see his growth. We are very grateful to the teachers and older students for their care; it must be hard for you since Ching Ching is quite a mischievous child. Also, thank you, Principal Chan, for leading the team to create a loving school environment, which is why the children love going to school.

PN (AM) Lam Kalleo

On the day of the interview, I could already feel the teachers' dedication, just as my friend, who recommended the school to me, said: the children will enjoy learning and growing here! In the first week of November, the teachers and staff took special care of Kalleo, helping him through his separation anxiety. The homeroom teacher, Ms. Tse, would update us daily on Kalleo's performance at school, which gave us peace of mind. Thank you to every teacher for your dedication. Thank you so much for your patience and support in looking after Kalleo!

# 家長心聲 Parent's voice

**PN (PM) Max Williams  
& Summer Williams**

Our twins Max and Summer joined St Peter's when they were two years old, in the afternoon PN class with teacher Terri. Initially a bit nervous to go in without us - and us also being a bit nervous leaving them - the school and staff ensure they adapted in their own time and provide an environment where they can learn through play. We have been so impressed at how they are picking up words in both Cantonese and Mandarin, and they always come home with a story about their daily snack or a new activity with their classmates. Teacher Terri obviously cares a lot about the students and we love the special activities and outfits for the monthly birthday parties! We look forward to seeing how Max and Summer continue to grow and develop through spending time at St Peter's.

**K1 (WD)  
Koo Lok Man**

We feel that the school takes great care of our LokLok, which gives us a lot of peace of mind. She has now integrated into the school environment, learned quite a bit about the local culture, and the friendly atmosphere makes her really enjoy going to school. She really likes the teachers and older students. She often talks about them! The school has also provided us with a lot of help, making it easier for us foreign parents to adapt to life here. We truly appreciate all the teachers and aunites at St. Peter's Church in Stanley. 🥰🥰🥰

**K1A(AM)  
Pang Yuet Yee**

I am Yuet Yee's mother. Yuet Yee has been attending St. Peter's Church in Stanley since N class! We chose to let her continue to K1 at her original school mainly because we see the love and patience from the teachers and the progress and confidence Yuet Yee has gained. The principal, teachers, and staff all remember the names of the children in different classes and actively greet them. Yuet Yee quickly integrated with her new classmates and classroom, and she has taken the teachers as role models, proactively greeting others. I am very grateful to Ms. Fan, the K1 class teacher, for reaching out to us parents to keep us informed about Yuet Yee's changes at school and for giving us advice. Yuet Yee has made significant progress in language, fine and gross motor skills, and singing. She loves to come home and sing the songs she learned at school, dancing and using her hands to express herself.

As a parent, I am especially thankful to see my child grow up healthy and happy. I love seeing her enjoy school, come home to tidy up her toys, do her homework, and miss everyone at school during long breaks. I appreciate the efforts of the principal, teachers, and staff in caring for my child. Thank you for taking care of her!

# 家長心聲 Parent's voice

Thank you, Principal Chan, all the teachers, and staff at St. Peter's Church, for your nurturing and care for Ka Chun over the past three years. Graduation is just around the corner! I especially want to thank

Class K3 teachers, Ms. Lu and Ms. Wong, for their constant encouragement and guidance to Ka Chun, and Ms Kwan from the Happy Bees for providing so much positive energy to the children! I believe Ka Chun will not forget the Principal and every teacher and janitor who has shown her love when she moves on to primary school. Thank you all! Next year, my younger sister Ka Pui will also join the St. Peter's family, and I hope she will enjoy the same joyful learning atmosphere as her sister.

**K3 (WD)**  
**Chan Ka Chun**

**K3 (WD)**  
**Yuen Kai Tung Kandace**

"An Unexpected Rainbow, Three years have passed in the blink of an eye. From K1, when Kandace was too shy to speak up, to K3, where she confidently spoke at the graduation ceremony, this transformation is truly thanks to the school's ongoing support and encouragement. I remember she always used rainbow colors in her drawings—whether it was portraits, animals, clouds, or swings, everything was vibrant and colorful. Some people once thought she was just being random, but the teachers never asked her to change; instead, they allowed her the freedom to express herself, resulting in a unique world that represented her childhood.

In addition to drawing, she has also become more active in sports. Initially, she wasn't very interested in the kung fu class, but after trying again in K2, she suddenly became very engaged. She even learned to jump rope over a hundred times, taught herself roller skating, practiced wall handstands, and did cartwheels. The school even allowed her to perform at the graduation ceremony (doing cartwheels), which motivated her to practice every day and enjoy every activity. She also won awards in the "One Person, One Flower" competition for two consecutive years, learning how to care for plants and the importance of perseverance.

The growth of children doesn't always have to be about pushing for academic results; rather, it's about giving them opportunities to try, explore, and find what they love to do. Many surprises are, in fact, unexpected rewards. Today, seeing Jitong holding her little flower pot while telling stories, we finally understand that letting go and trusting is what leads to discovering her rainbow.

K3 (AM)  
Chow Yuen Yuet

Recalling four years ago, we held Yuen Yuet's little hand and walked with unsteady steps through the gates of kindergarten. Everything was so unfamiliar yet incredibly fascinating for her! The principal and teachers stood outside every day, greeting her with warm smiles: "Good morning, Yuen Yuet." This simple gesture made her feel comforted and familiar each morning. St. Peter's Kindergarten is Yuen Yuet's first school and her second home. Over these four years, she has grown happily at school, learning various knowledge and developing good character. Now, she understands the importance of politeness, respects others, appreciates those around her, and most importantly, has made many good friends. We are truly grateful. This is a testament to the dedication of Principal Chan, all the teachers, and the teaching team at St. Peter's Kindergarten, who have fostered a caring culture. Moreover, we have witnessed continuous improvements in the campus facilities, creating a lively, comfortable, and colorful learning environment for young children! This is aimed at providing a better learning atmosphere and fostering close cooperation between home and school. Various activities and lectures have helped parents build good relationships and trust with the school. As graduation approaches, we wish every graduate of St. Peter's Kindergarten a bright and beautiful future!

K3 (AM)  
Lau Sum Yu Gabi

Finally, it's graduation day! From my older sister, Sum Yi, to my younger sister, Sum Yu, both girls have graduated from St. Peter's Church! Over the past eight years, we want to thank everyone at St. Peter's Church, especially all the teachers who have taught both girls: Ms Fan, Ms Lu, Ms Kwan, Ms Chan, Ms Wong, Ms Tracy; and the former teachers, Ms Lau, Ms Yu, Ms Cheung, and Ms Natasha (please forgive me if I've forgotten anyone). Also, a big thank you to the three wonderful staff members: janitor Qiu, janitor Lai, and janitor Qun; and of course, Ms Ng and the school bus uncle. Lastly, we want to extend our heartfelt thanks to Principal Chan, who has watched over both sisters since my older sister started school. We know we've caused you a lot of trouble... thank you for helping us solve our problems every time and for managing so many things for us. Whether it's school issues or taking the kids out for visits and activities, you've been incredibly supportive. We hope that in two years, when all three girls are in school, you will still be here, haha! My husband and I sincerely thank each of you; both girls have had a wonderful time at school! We wish you all good health, happiness, and success every day!
